

Learners excel in entrepreneurship

● Business Partners shows the way

Business Partners recently sponsored the annual IR Griffith Primary School's Entrepreneurial Awards evening for the third year as part of its social responsibility programme.

Under the watchful eye of the deputy principal and economics

teacher, Moira Holz, the project has been running for more than 16 years.

The programme involves creating an idea or concept that is used to form the basis of a business plan. The business plan has to contain market research

findings, pricing and costing, break even point, stock control sheets and an income statement. In addition, learners have to write their own marketing and advertising plan and a summary of the financial aspects of running a business.
