

The Minimum Wage Rate
Effective 1 July 2009 to 30
June 2010

1) Use of the month of March CPI (CPIX) figure.
Gazette No 31070. Notice R541 on the 16th May
2008 published by the Minister of Labour states that
"The CPIX to be used to determine the minimum
wage increase will be the CPIX as reported by
statistics South Africa six weeks before the increase
becomes effective".

Six weeks prior to the 1st July 2009 was the 20th May
2009. As the April 2009 CPI figure was only published
on Wednesday 27th May 2009, the March CPI + 2%
(CPIX) has been used as the official rate for the
minimum wage schedule commencing 1st July 2009.

2) Use of an equivalent CPIX figure for march
2009

Changes to the inflation target and Headline inflation
measures - Published by StatsSA 21 October 2008 -
"Many legal agreements make use of the current
headline measure (CPI for historical metropolitan
areas) or CPIX (for metropolitan and other urban
area) as an inflator. In order to assist users, Stats SA
will continue to publish indices that will provide
continuity for these purposes. The CPI for primary
urban area will replace the CPI for historical
etropolitan areas, and the CPI excluding Owners'
equivalent rent will replace the CPIX.
